WORK EXPERIENCE

2022–Present

Data Analyst - Senior Management Control

CONSEJO PROFESIONAL DE CIENCIAS ECONOMICAS · CABA, San Nicolás

My responsibility is to ensure an optimal internal management process within the organization. Some of my tasks include ensuring that users correctly input information into SAP for more dynamic and efficient reports, controlling accounting entries in purchase orders, internal orders, approvals, and invoices. I use Power Query in Excel to manage tables for data validation, cross-checking, and reporting. I implement interactive dashboards in Power BI and Excel to visualize key metrics, improving real-time decision-making. Additionally, I automated repetitive processes using Power Automate, reducing operational times.

2020–2022
